

Message of Hope for the Changes to Come: Spiritual Evolution of Humanity and the Healing of Mother Earth

We are now in the midst of the fulfillment of prophecy. As human family, we have ignored the warnings of the Spirit, the Sacred Teachings and the plight of extinction in the natural world for the mineral life, the plant life, the animal life and the living creatures in the waters and in the air.

As a dark force has descended to challenge all human life on Mother Earth, we reach for the Creator for help, healing, spiritual guidance and a sense of the way forward.

As much as we are suffering now, we are labouring for a new world, a new society and new values underpinning our economy, our governance, our health and education and social systems. Move within the change, do not fear.

Your Daily Responsibilities

1. Keep the Ceremonies Going: Give Thanks every morning and evening.

At Soul of the Mother we are offering ceremonies at 8:00 am and 8:00 pm daily from our respective homes until we can meet at the Sacred Fire once everyone has self-isolated. This is as much a spiritual battle as it is a physical battle. COVID 19 is a spiritual illness manifesting physically.

2. Drink Medicine

You have been taught to use medicines and "give direction" to whatever medicine you have handy at this time to build your immune system. Use your traditional name and address the Creator, Mother Earth, the sacred water, and the medicines to do their work in your body to strengthen your immune system so that the virus passes you by.

3. Connect with community daily

We need each other more than ever as ceremonial family across the decades and great distances. Keep emails, texts and calls going daily to support one another and share love, dreams, spiritual messages, visions and laughter (good medicine). Make sure you let your people, friends, colleagues, family members know how much you love and care for them. Do not be shy to share your deepest words and feelings to express to others the love for them that you have in your heart.

4. Call out Love for Creation and Humanity: Kanaronkwa

In your daily invocations, call out all the love you have in your heart for humanity and Mother Earth to heal and protect all life.

The greatest medicine in the universe is LOVE. The love of the Creator is infinite and has power beyond words or description. The infinite love of the Creator heals all and protects each other and all of creation.
